

# BATTLE FX M4 SIM GUN

## SIMULATED RIFLE

Next Generation Training Device

- **Realistic:** Accurate for form, fit and function with all native controls
- **Tether-less:** Utilizes wireless connectivity for firearm/system data
- **Compressed Air Recoil System:** (No Pyrotechnics, No CO2 or Green Gas)
- **Built in Air Cylinder:** (The air tank is built into the gun, not the magazine)
- **Tracking:**
  - **Laser based-** Supports Barrel mounted lasers for traditional screen based training
  - **LED** –Support LED Position Tracking for Virtual / Augmented Reality applications
- **On Board Sensors Included:**
  - Multi-Axis, Barrel Movement, Trigger Well, Trigger Movement, Bolt Position, Magazine Position, Selector Position
- **Durability and Maintenance:**
  - Built for simulation and training (NOT a modified Air Soft or Actual Firearm)
  - Reinforced in high wear and tear areas (Selectors, Hammer, Bolt, Trigger)
  - Designed for ease of repair and manufacture
  - Line Replaceable Unit (LRU) components that can be changed by the end user

## Specifications

- No FFL Required
- Dedicated Training Device
- Tether-less / Wireless
- Compressed Air Recoil System
- Laser and/or LED Tracking
- Removable Smart Magazines
- Fully Sensed
- Software Development Kit Included
- Quick Refill / Recharge station
- Mil-Spec components
- Model shown with 16in barrel
- Available in Black or Tan
- 12 Month Warranty
- Made in the USA
